Off Road Vehicle Workshop

Off Road Vehicles (ORVs) can cause significant damage to natural areas in the Lake Michigan Coastal Region. Uncontrolled access to public and private lands is increasing, and almost all land managers are experiencing natural area degradation from inappropriate ORV use. Various stakeholders participated in a one-day workshop to discuss measures to mitigate natural area degradation and to develop public outreach tools to convey interests, concerns, and measures to eliminate the degradation of natural areas due to ORV use.

RESULT: A One Day Workshop to Discuss ORV Use in Natural Areas.
